Mrs. Elizabeth Johnson  
53 Washington Square  
New York City

Dear Mrs. Johnson:

When Mr. Seltman was here on Saturday last, I tried to obtain from him an identification of the coin with the head of Heracles to which you referred. He said that the only one he could remember having discussed in his lecture, was the type which I showed you with the head on the Alexander and Lysimachus Tetradrachms. If, when you are at leisure you will come in again, we will try to help you further, but Mr. Seltman was quite at a loss in trying to answer your question.

Very truly yours,

Secretary.
